

Beauty Is Your Name

Gave us hope to heal our scars

Spoke to us of magic things

Prayed with us beneath the stars

Embraced us with your fairy wings

Touched us with your perfect love

Danced with us to the shaman's drum

Revealed the meaning of the dove

Explained the cycles of the sun

Shared with us the raven's quest

Showed us how to heal our souls

Taught us we are truly blessed

Touched our hearts and made them whole

Ignored the rantings of the witch

Saved us from our dark descent

Unveiled the light and threw the switch

Stressed the meaning of intent

Gave us roots to set us free

Instructed us to plant the seed

Insisted that we must believe

Beauty is your name indeed
